From The President's Desk

Dear Members,

Warm Wishes!

We Vizagites really look forward to winters as the weather becomes pleasant and enjoyable. Our Club members also look forward to winter because there are a lot of interesting events happening during the season. In November, members witnessed a month full of enthralling events organized by the Committees. Library Committee conducted back to back interactive sessions for the benefit of members. The first session was by Anjali Dange on smart nutrition for diabetics. The second session was also an equally important session in which Dr.P.V.Satyanarayana enlightened the audience about how to balance fat and sugar intake to lead a healthy life.

On the eve of International Men's Day, the Club organized an extravagant event in which our club members turned into models and walked the ramp with style and poise. Ravi Godey bagged the 'Mr.Waltair Club' title. The award ceremony of Waltair Club Golf Cup was organized by the club in a grand manner. All India Open Bridge Tournament was also hosted by the Club. Children's Day eve was celebrated by Ladies Committee. Ladies went all out to ensure a happy evening filled with laughter and fun for the young ones. In the same event a painting competition was held for children on environment theme. The event witnessed a very enthusiastic participation from the children.

On December 7, Ladies Committee is planning to organize a Ladies Coffee Morning with baking theme that includes some competitions, fun-filled games and demos by experts. The Entertainment Committee is all set to organize a picnic at Sunray Village on December 11 which will be undoubtedly a fun filled family day out. The highlights of the picnic are games, car rally, water sports, lip-snacking food and many more. The club is also planning to organize a health checkup for its members by Vijaya Medical Centre on December 17& 18. Children always look forward to Christmas Party because they know that they will be pampered thoroughly with gifts, yummy food and lots of entertainment. So to keep up to their expectations Ladies Committee is getting ready to celebrate

Christmas party for the children with a theme of 'White Christmas'. Entertainment Committee is working in full swing to make the top-notch event of the year, the new year eve party the most memorable one. Members can look for a scintillating experience with star studded performances, choicest spirits and many more.

The recent demonetization has seen mixed reactions as people remained skeptical on the consequences that would follow. Though this is a bold initiative by the government to crackdown corruption, people's patience is being tested as new notifications are released every other day. Though the move is appreciated in general, but the manner in which it is carried out by causing hardships to common people is criticized. Eventually let us hope that everything will fall into right place and everyone would have a happy new year. In this context I would like to inform the members that the Club is gearing up to install ePOS machines for facilitating cash less transactions and request members to utilize online payment facility by NEFT/RTGS. Check your bills,pay online and inform UTR number.

Wishing all the members in advance a very happy and successful new year !

With Warm Regards,

A. Satyanarayana

An interactive session on “Smart Nutrition for Diabetics” held on 20-11-2016

The interaction session on "Smart Nutrition for Diabetes-Prevention & Management in the family" by Anjali Dange, Nutritionist and Dietitian, is well received by the members of the Club. She explained about Diabetes and what types of foods that should be cooked at home for the management of the disease. She explained various recipes in which certain ingredients can be replaced for

leading a better life. There were many questions asked by our members and the interaction was great.

An interactive session on “Who is the enemy? Fat or sugar” held on 27-11-2016

Another innovative lecture "Who is the enemy? Fat or sugar" By Dr.P.V.Satyanarayana, well-known cardio-thoracic surgeon, Care hospital was very well attended by large number of members. His lecture was started with the food habits from ancient times till today. He explained the role of various biochemical ingredients such as Carbohydrates, proteins and fat in our diet both in normal life and in diabetes, obesity etc. From his own experience he detailed the way in which one could be free from diabetes and obesity by altering the intake of food -lessening the carbohydrate and increasing protein and fat rich foods. But all these precautions should be taken under the supervision of the doctor. The members interacted with him

and clarified their doubts and the session was very useful and informative.
